-----------	--

SECTION 06: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Protection regulations (see point 7 and 8) to consider.
- 6.2 Environmental precautions: Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water. Possible warning the neighbourhood.
- 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Do not flush with water or aqueous cleansing agents
- 6.4 Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

SECTION 07: Handling and storage

• Handling:

7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Use only in well ventilated areas. Smoking, drinking and eating are not permitted at the working place! Keep out of the reach of children. Do not breathe in fumes. Do not empty into drains.

• Information about fire - and explosion protection: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture.

Vapours are heavier than air. Soiled material such as cleaning rags, paper tissues and protective clothing can spontaneously selfignite after several hours. To avoid the danger of fire, all soiled material should be soaked in water and stored in a closed metal container.

- · 7.2 Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles: The official regulations for the storage of paints and varnishes and Chemicals must be observed.
- Information about storage in one common storage facility:
- Store away from foodstuffs.
- Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.
- Storage class:
- 7.3 Specific end use(s)

For more information, please refer to the technical data sheet.

SECTION 08: Exposure controls/personal protection

- 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- DNELs

Change in condition Phase transfer: fluid	- solid
Melting point/freezing point:	Undetermined.
Initial boiling point and boiling range:	78,0 °C
Flash point (approximately):	41,0 °C DIN 51 755
Flammability (solid, gas):	Not applicable.
Ignition temperature (approximately):	210,00 °C (lowest value of the single components)
Decomposition temperature:	Not determined.
Auto-ignition temperature:	Product is not selfigniting. Due to the danger of self-ignition soaked cloths, however, should be moistened with water and eliminated then.
Explosive properties:	Product is not explosive. However, formation of explosive air/vapour mixtures are possible.
Explosion limits:	
Lower:	0,60 Vol %
Upper:	6,50 Vol %
Oxidising properties	Not determined
Vapour pressure:	Not determined.
Density:	0,8880 - 0,9050 g/cm3
Vapour density	Not determined.
Evaporation rate	Not applicable.
Solubility in / Miscibility with	Organic solvents
water:	Insoluble.
Partition coefficient: n-octanol/water:	Not determined.
Viscosity (according to DIN 53211)	
Dynamic:	Not determined.
Kinematic:	> = 20,5 mm2/s (40°C)
Solvent separation test:	< 3 %
Solvent content (approximately):	
Organic solvents (approximately):	57,00 %
VOC (EC)	395,00 g/l
Solids content (approximately):	43,00 %
9.2 Other information	No further relevant information available.

SECTION 10: Stability and reactivity

•	 10.1 Reactivity On storage in containers no traffic laws intolerances are to be expected with the tank shell. 10.2 Chemical stability Stable at room temperature Thermal decomposition / conditions to be avoided: No decomposition if used and stored according to specifications. 10.3 Possibility of hazardous reactions
•	Forms explosive gases/fumes. Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised. 10.4 Conditions to avoid No further relevant information available. 10.5 Incompatible materials: No further relevant information available. 10.6 Hazardous decomposition products: Flammable gases/vapours

SE	CTION 13: Disposal considerations
	 13.1 Waste treatment methods
	Recommendation
	The mentioned waste code number according to the European waste code catalogue are regarded a a recommendation. A final determining has to be effected in agreement with the regional place of waste disposal as well as the competent authorities.
	Waste disposal key:
	08 01 11 waste paint and varnish containing organic solvents or other hazardous substances
	• European waste catalogue
	Wastes from the manufacture, formulation, supply and use (mfsu) of COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS 08 01
	wastes from MFSU and removal of paint and varnish
	08 01 11 waste paint and varnish containing organic solvents or other hazardous substances
	Uncleaned packaging:
	 Disposal of uncleaned packagings according to European waste code number 15 01 10. Recommendation:
	Disposal according to 15 01 04 (metal). EAK-Nummer 15 01 02 / plastic
	Packaging can be reused or recycled after cleaning.
	The product is not self-igniting. However, soak used rags in water and dispose of them due to the danger of self-ignition.
	Recommended cleansing agents:
	CLOU EV Thinner
	CLOU Thinner for CLOURETHAN

SECTION 16: Other information

Other information:

Reasons for changes

There was a raw material replacement.

Under point 3 a substance has been removed.

The dangerous goods classification guidelines according to the CLP Regulation (EG) No. 1272/2008 has changed (see point 2.)

Relevant phrases

- H226 Flammable liquid and vapour.
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H311 Toxic in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H331 Toxic if inhaled.
- H335 May cause respiratory irritation.
- H336 May cause drowsiness or dizziness.
- H372 Causes damage to organs through prolonged or repeated exposure.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.
- H411 Toxic to aquatic life with long lasting effects.
- H412 Harmful to aquatic life with long lasting effects.

Classification according to Regulation (EC) No 1272/2008

The classification of the mixture is generally based on the calculation method using substance data according to Regulation (EC) No 1272/2008.
